Ecology and economy from a single source: How environmentally friendly is your company really?

Eco-fiduciary services for SMEs

We offer sustainable fiduciary services with environmental consulting:

- We integrate your environmental balance sheet and CO_2 statement into the financial accounting.
- We show the social factors such as equal pay and confirm them for you.
- We show which operating areas and products are profitable.
- We combine ecology, economy and social issues.
- We support you with annual financial statements, taxes and wages.

ECONOMY

Fiduciary services:
monthly and quarterly reporting at operating department level, liquidity reporting and forecasts.

Financial reporting:
project management, project and contribution margin accounting, stock accounting and webshop.

Controlling:
annual accounts, taxes, management consultancy.

ECOLOGY

CO2 evaluations:
Integrated evaluation from financial accounting, Neosys certificate «CO_2 neutral company», CO_2 balances for products, departments or companies.

Environmental and eco-reporting:
environmental impact accounting from financial accounting, automated eco-reporting, life cycle assessments and life cycle analyses.

SOCIAL

Equal pay:
equal pay analyses, Neosys «equal pay» certificate, advice on fair pay systems.

Other social assessments:
social reporting, absence hour statistics, supplier assessment.
