

# Funding projects through CO<sub>2</sub> reductions and compensations

## Neosys AG

Belchenstrasse 3  
CH-4600 Olten

+41 32 674 45 11  
info@neosys.ch  
www.neosys.ch

Securing financial support for projects by selling CO<sub>2</sub> reductions in Switzerland or abroad.

Verifiable CO<sub>2</sub> reductions achieved as part of a project can be sold in Switzerland or abroad to support the project financially.

# Funding projects through CO<sub>2</sub> reductions

Strict criteria are applicable to evidence of CO<sub>2</sub> reductions. We will help you monetise your CO<sub>2</sub> reductions through the CO<sub>2</sub> projects and programmes mechanism. We also offer a full consulting service to ensure that your organisation complies with the provisions of the CO<sub>2</sub> Act.

We can validate and verify projects, monitoring concepts and monitoring reports produced as part of the ETS and for target agreements and offsetting projects.

## Our services:

- Evaluation of projects and possible financial support for them through the 'offset projects' CO<sub>2</sub> instrument or via the international carbon market
- Evaluation of technologies and possible financial support for them through the CO<sub>2</sub> programme mechanism
- Drafting of relevant documentation, help with registration with the Swiss Federal Office for the Environment or independent CO<sub>2</sub> standard providers
- Regular reporting while your project or programme is under way (monitoring)
- Help with monetising carbon attestations and carbon certificates
- Operation of CO<sub>2</sub> programmes
- Advice on funding possibilities and on carbon tax exemption in relation to the CO<sub>2</sub> Act
